

DREAM IT. LOVE IT. LIVE IT.

For interior designer, Dana Bass, creating spaces that are not only visually stunning but also intimately connected to the individuals who inhabit them is an art form.

Q How do you begin the design process?

A We begin with a deep understanding of our client's unique personality and lifestyle. My highest priority is that each client's space reflects who they are and how they function in their home.

Q What are you known for?

A We're known for wildly creative, fun, and vibrant homes that are infused with color, meaning, and a sense of wonder. We design homes, outdoor living spaces, commercial offices, and recently, yachts—all locally and globally.

Q What's something we don't know about you?

A That I love fast cars and 90s rap (*grin). What others may not know about me is that I design outdoor spaces too, which I've found to be a rare and valued proficiency. My ability to extend an indoor aesthetic outdoors creates a fluid narrative in our clients' homes that's just plain gorgeous.

Q How do you measure success?

A Happy clients! We just had a client tell us that working with us was "the best experience ever!" That was pretty fantastic to hear.
