With an intuitive approach, Dana M. Bass, ASID, NKBA, NCIDQ, RID, creates award-winning spaces that are refined, playful, luxurious, and unexpected. And she's just plain fun.

Bass is known for infusing textures with patterns, layering elements, and mixing vibrant colors to create dream spaces for her clients. Her namesake firm epitomizes the force behind the face, as clients are inspired to DREAM IT. LOVE IT. LIVE IT.™

With nearly two decades of experience, Bass has cultivated a creative dialogue between her clients—and their homes. She honors the history and architecture of each project while masterfully

mixing distinctive furnishings and artwork in luxe, yet eminently comfortable homes.

Bass found her roots in the hospitality sector designing bars, nightclubs, and restaurants with an evocative, unexpected, and glamorous flair. In stepping into residential design, she found her calling. “There’s nothing more thrilling than tailoring my clients’ dreams and needs into a space that will transform their lives,” she says. Bass loves the process of design, the thrill of the hunt, raw creativity, and the satisfaction of everything coming together—and what she values most of all is her clients.
